Our mission

We are working towards bridging the skill gaps in companies by providing highly skilled professionals faster and support them in all stages of recruitment

PELUMI LONGE
Fullstack engineer

"I had a very pleasant experience job searching on the Moyyn platform which saw me getting a job offer within one month. I created my profile and I could apply to jobs by clicking if I was interested or not based on skill match with the job and my preferences."

"With the help of Moyyn, we hired our Head of Engineering. The candidates were top notch and so was the support. Expectations exceeded."
